

## New Semi-Electric Economy Bed

- Semi-Electric Economy Bed features a convenient DC motor box that snaps off quickly, making for easy delivery, set-up and routine maintenance.
- 9V battery backup allows movement of the bed's deck position during power failures (batteries not included).
- Head and footboard are interchangeable
- Lightweight at only 102 lbs (46 kg) without the motor box
- Hand pendant control designed with large buttons for exceptional ease of use
- Bed height is adjustable with non-slip legs by locking pin
