

# GoBed II®

## Med/Surg Bed

Available with Stryker's patented Chaperone® bed exit system and Zone Control® technology

Single-button, in-bed scale provides accurate, repeatable weights with the patient in any position

Integrated pump holder and optional 110-volt outlet conveniently located on the footboard

Complete siderail coverage and 14.5-inch low bed height contribute to a safe patient platform

Centrally-located fifth-wheel helps improve maneuverability and ease transport

### Safe, Simple, Mobile

Extensive input and feedback from nursing professionals helped qualify the need for a med/surg bed that helps add predictability and stability to patient care practices. Numerous one-button or one-handed controls allow caregivers to spend their time helping patients recover quickly, in a secure and comforting environment.

Yellow siderail lever is easy to locate and release using just one hand.

A low bed height of 14.5 inches promotes proper patient positioning for safe entry and exit.

Conveniently located on the footboard, the integrated pump holder helps maximize space at the foot-end of the bed.
